Education

RVRJCCE	Guntur,AndhraPradesh
Graduation in Computer Science - 6.9CGPA	2016 - 2022
M.B.T.S Govt Polytechnic College	Guntur,AndhraPradesh
Diploma in Computer Science - 67.75 Percentage	2010 - 2016
R.C.M sss High School	Sattenapalli,AndhraPradesh
Board Of Secondary School of Education - 66.5Percentage	2009 - 2010

Skills

Programming Languages: Python, Java, SQL

Front end: HTML, CSS, JavaScript, Bootstrap

Database: SQL

Data Analysis: Pandas, NumPy

AI & GenAI: Prompt Engineering, OpenAI API Basics, Generative AI Fundamentals

Tools: Git, GitHub

Certifications

NxtWave Disruptive Technologies Sep 2021 - Now

Continuous Capacity Building Program Intensive Bootcamp Trainee

- Developed a Keen understanding on the Fundamentals of Programming with Python.
- Able to build impressive Static, Dynamics and Responsive Website using JS

Projects

E Commerce Website

Developed E Commerce website where users can go through different products, detailed information about a product, offers and contact us info.

- Designed page using following HTML structure elements and footer elements by using different bootstrap components to show different sections in the website and different bootstrap

classes for responsiveness through mobile-first approach.

- Implemented product youtube videos by using bootstrap embed and model components and displayed multiple images of offers in a carousel using bootstrap carousel.

Technologies used: HTML, CSS, Bootstrap <http://divyaecommerce2.ccbp.tech>

Food Munch

Developed a responsive website for Food Store where users can see a list of food items, detailed information about a food item, offers

- Designed page using following HTML structure elements like li, header, article, footer elements and different bootstrap components to show different sections in the website and different bootstrap classes for responsiveness through mobile-first approach.
- Implemented product youtube videos by using bootstrap embed and model components

Technologies used: HTML, CSS, Bootstrap <http://foodmuchlogo.ccbp.tech>

Todos Application

Developed persistent to do application with CRUD operations to track list of tasks

- Displayed list of to do's with HTML list elements, styled to do list using CSS, Bootstrap
- Implemented to do crud operations by using JavaScript event listeners and updated UI dynamically by using JavaScript DOM operations.
- Used Arrays, Objects and their methods during to do list CRUD Operations, Persisted to do list state on page reloads using local storage methods.

Technologies used: HTML, CSS, JS, Bootstrap <http://appstodo.ccbp.tech>

Estimation Of Passenger Route Choice Pattern Using Smart Card Data For Complex Metro Systems ():

Metro systems play an important role in meeting the demand for urban transportation in large cities. The wide deployment of automated fare collection (AFC) systems opens up a new opportunity; however, only each trip's tap-in tap-out timestamps and stations can be directly obtained from AFC system records; the train and route chosen by passenger are unknown information necessary to solve our problem. AFC records data by matching a passenger's smart card data records with the train operating time table the route that he/she might choose can be narrowed down

Technologies used: HTML, CSS, JAVA database are CSV FILES DATA MINING
